ELITE 70 

# The smart way to improve your home...

Take a fresh look at PVC-U windows and turn your eye to Elite 70 from Spectus Window Systems.

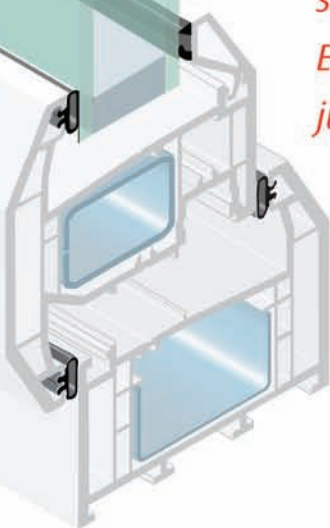

Elite 70 offers the choice of either the stunning ovolo, or the striking bevelled design. Whichever you choose, you get a wealth of advanced technology to protect you from the harshest weather conditions, shield you from noise pollution and provide exceptional security for total peace of mind.

Designed by Spectus, a UK based company with over 25 years of experience, Elite 70 is manufactured to very high standards to ensure your new windows will last for years to come.

With its stunning appearance and many practical benefits Elite 70 offers a world of choice for the discerning homeowner.

“All the convenience of PVC-U - and ever so attractive. Elite 70 windows were just what we wanted.”

“ I imagined that choosing  
PVC-U windows meant  
putting up with hard,  
plastic edges...  
I was wrong. ”

## ...an Elite makeover

Whether you prefer the traditional look of the slim bevelled profile, or softly curved contemporary ovolo design, Elite 70 windows and doors will complement the appearance of your home.

What's more, each style is available in a choice of attractive woodgrain finishes, as well as pristine white, to suit your property and individual style.

And you won't have to work hard at maintaining the exceptional appearance either, because the Elite 70 requires only a gentle wipe clean with the mildest of detergents.

The overall appearance is enhanced by the use of concealed gaskets, which also provide a superior seal to the energy efficient glass units.

Treat your home to the comfort of Elite 70.
